## PEEK AT PRESCHOOL

The Tiger class is learning about the letter D this week. They are writing the letter as well as identifying things that begin with the D sound. Today they, along with the other 4 year old classes visited a Dairy Farm to learn about how we get our milk and all the other dairy products that come from dairy cows. The students were particularly interested in the automatic milking machines and the big bulk tank where the milk is refrigerated and stored until it is picked up from the farm. They learned that the farmer has a lot of work each day to make sure all the cows are fed and milked!

Next Wednesday & Thursday will be picture day at the preschool. Please remember to return to your teacher the child information sheet that was sent home last week.

Looking ahead.....November 12 & 13 is parent teacher conferences and there will be no preschool classes and NO EXTENDED CARE on those days.

### Pastor Drescher's Corner

A counselor working with boys at a correction center, had the boys reflect on the kind of homes they came from and write down a code for parents, using as a basis things in which they thought parents failed. One thing they mentioned was, "Remember your children are great imitators. We lose respect for parents who tell us to behave one way, when they are behaving another way."

Children seek to follow those they admire and love. The kind of person a child becomes depends on the kinds of adults the child admires - primarily parents.

Also, the implications of TV and the heroes the child sees cannot be overemphasized. This is no doubt why the Bible speaks so little about children and so much about parents' responsibility.
